WEDNESDAY, DEC. 6, 1899.

The Sun gives place today to a liberal part of President McKinley's message as read to congress yesterday. Tomorrow more of the message will be printed, fitting the purpose of the Sun to give the message complete to its readers, though forced to do so by section, for lack of room. The readers of the paper will no doubt appreciate the efforts of the paper to give them this interesting document even as it will do, for the paper is one all will no doubt wish to peruse, so many important national matters being treated in such an interesting way by the very distinguished head of the country. The message is an able document, clear cut in spite of its length, fit containing something like 20,000 words, and is a credit to the head of Mr. McKinley. Let us hope the leading features will be mentioned as considered proper, though the reader will have the message in full to consider for themselves.

It is apparently a toss up as to who will get the certificate—Taylor or Goebl—but the decision was made the 5th of last month.

What has become of Captain Drygas—of such recent note? It has been near ten days since the cable has said he was going to do anything, has the captain been so soon forgotten?

It used to be said that Paducah had a mayor and he had a constable. The Sun says such an option will never exist again. It should only be said the city has a constable and a mayor. The tall should never exceed the dog.

It is not a creditable admission, but it is clear that the Roberts case will attract much attention in and from congress before it is settled. The Roberts case is a great moral reflection upon the country justly—so far as is known to our state.

Illinois is driving many of the trusts toward the Atlantic coast. They will hardly find an abiding place there either, for the Republican party has set out to drive them from the land, and they must go. The trusts will soon have not a place where to lay their heads together to further save the life of the people.

The best half of the state papers which supported Goebl have declared that Taylor was chosen governor and should have the certificate. And the best part, and most creditable, is, that only one of these papers, our own *Paducah Leader*, has backed up even what they said. The fact is one of communication, politics no to politics.

It is announced from Hong Kong that Aguinaldo is ready to quit. The joint at that point has so advised and that is perhaps all there is to the story. The why Filipino leader has in and will not decide to give up his fight until there is no further chance for flight. It is more likely he will take to the mountains and become the King of one more tribe of outlaws.

Previous to the election Goebl had the good people walking to keep him from being governor, but now they have him walking and walking him on the move until he is well out of the way. It is reported from Frankfort that Goebl frequently takes long walks to settle his disturbed mind, which is plainly out of whack over the strain under which it has been for several months.

Should the state canvassers lay back on the shelf, the legislature do the same for Blackburn and also for the notorious election bill now so recognized statute of the state, the people will be greatly blessed and the new year will be very promising indeed. It is an old saying that never intermits but it pouts, and if the state canvassers only stay the ball, there is no telling how far it may roll.

The Sun has held aloft from the pretension of the state canvassers since it was convened, because the paper believes the board should not be condemned nor exiled without cause. The Sun so far has been favorably impressed with the actions of the canvassers and believes the board is going to be just and give the certificate of election to the Republican ticket. The previous high standing of the gentlemen justifies the conclusion and the hope.

## LITTLE HOPE.

People of South Tenth Street Will Have to Bear a Little Longer.

The residents of South Tenth street, especially the citizens who are very indignant over the manner in which they can not have been satisfied by the contractor and contractor in the improvement of the street.

Months ago the contract for grading and graveling the street was let, but after the work had progressed for some time, the contractor that had the contract left the ordinance, and work was stopped, another ordinance was passed. Mr. Terrell, in return for allowing this to be done, had his time extended, for completing the contract.

The dirt excavated for the street was carried away and placed on the Washington street wharf, and now there is a huge hole for several blocks.

that fills with water during a rain, and renders the citizen street impassable. Wagons cannot get near the houses, and people have to wade in wet weather.

Yesterday a lady called on Mayor Terrell, and demanded that something be done for their relief. She owns three houses out there, she said, and had lost good paying tenants, and been left without her living, on account of the street.

Mayor Terrell said that everything possible would be done to relieve the people, but how anything can be done cannot be determined, as the council only recently extended Mr. Terrell's time until next June, when one can let the street tenanted it is impossible that time if he wants to.

There are all seeming restlessness, and we dwell up in the tenderness, the charity and the kindness of those who are in the pipeline, and gaze upon the last that open the fact that even in death seems to find one more assurance of affection.

To that true heart which so generously accepted us, the title of friend we have given a pang, or have by thought, when given a pang, and frequently a pang to the grave, and the endearments have faded upon him by the living, and we often require the grave to remind us of the virtues of our friends.

One of the greatest benefits derived

Paducah Marine Railway Company  
and others vs. Steamer Fred A.  
Blanks in admiralty.

Whereas libels were filed in the  
district court of the United States,  
at Paducah, Ky., on the 28th day of  
November 1890, by the Paducah Ma-  
rine Railway Company, Langstaff  
Cotton Manufacturing Company and  
others, against the steamer Fred A.  
Blanks, her engines, tackle, apparel,  
furniture, etc., alighting in substance  
that said steamer was indebted to  
them in sum of about \$17,000 for  
supplies, material and labor furnished  
said steamer Fred A. Blanks, her engines,  
tackle, apparel, furniture, etc., and  
that said steamer be condemned and  
paid to said claimants, with cost and  
expenses.

It begins to look as if there is never  
going to be any other here again,  
not only Wharfmaster Summer  
Perry, but also the steamer Fred A.  
Blanks, which is still delin-  
gered. In this instance, however,  
the court of admiralty has not  
done its duty, and said them  
to Mr. Theobald for \$65. This was so  
large a sum, that Mr. Theobald  
accepted something and advised him  
to take the man who sold him to  
the court where he got them.  
He called his law and rode up  
to the court. The court said, "We  
have seen hardly any man  
since then who had to go there on  
a libel. He is not the man he bought  
in, he is not in new clothes. In  
act, he seemed to be no all over,  
it would have been better if he  
had not been so bad before. He paid  
the court \$65, and one month later  
Mr. Theobald searched  
them, there was only \$6 remaining  
unpaid. The man didn't get to enjoy  
new clothes long, however, for  
he was soon wearing stripes, and  
spent them on three years. Now when  
a man can't get to see Mr. Theobald,  
he has to go to "sight" him to the  
next court.

The reasons are not far to seek. They  
are deep in our natural character and  
of bad draft, in every way of ex-  
cellence, and the steamer Fred A.
